

CLIMATE CHANGE GUIDE

• FOR STUDENTS •

**“The Earth is our home,
it’s our responsibility to protect it!”**

eTwinning Project

Environmental Literacy in the Digital World

Turkey  – Bulgaria  Partnership

Toroslar Atatürk MTAL • 2026

1.

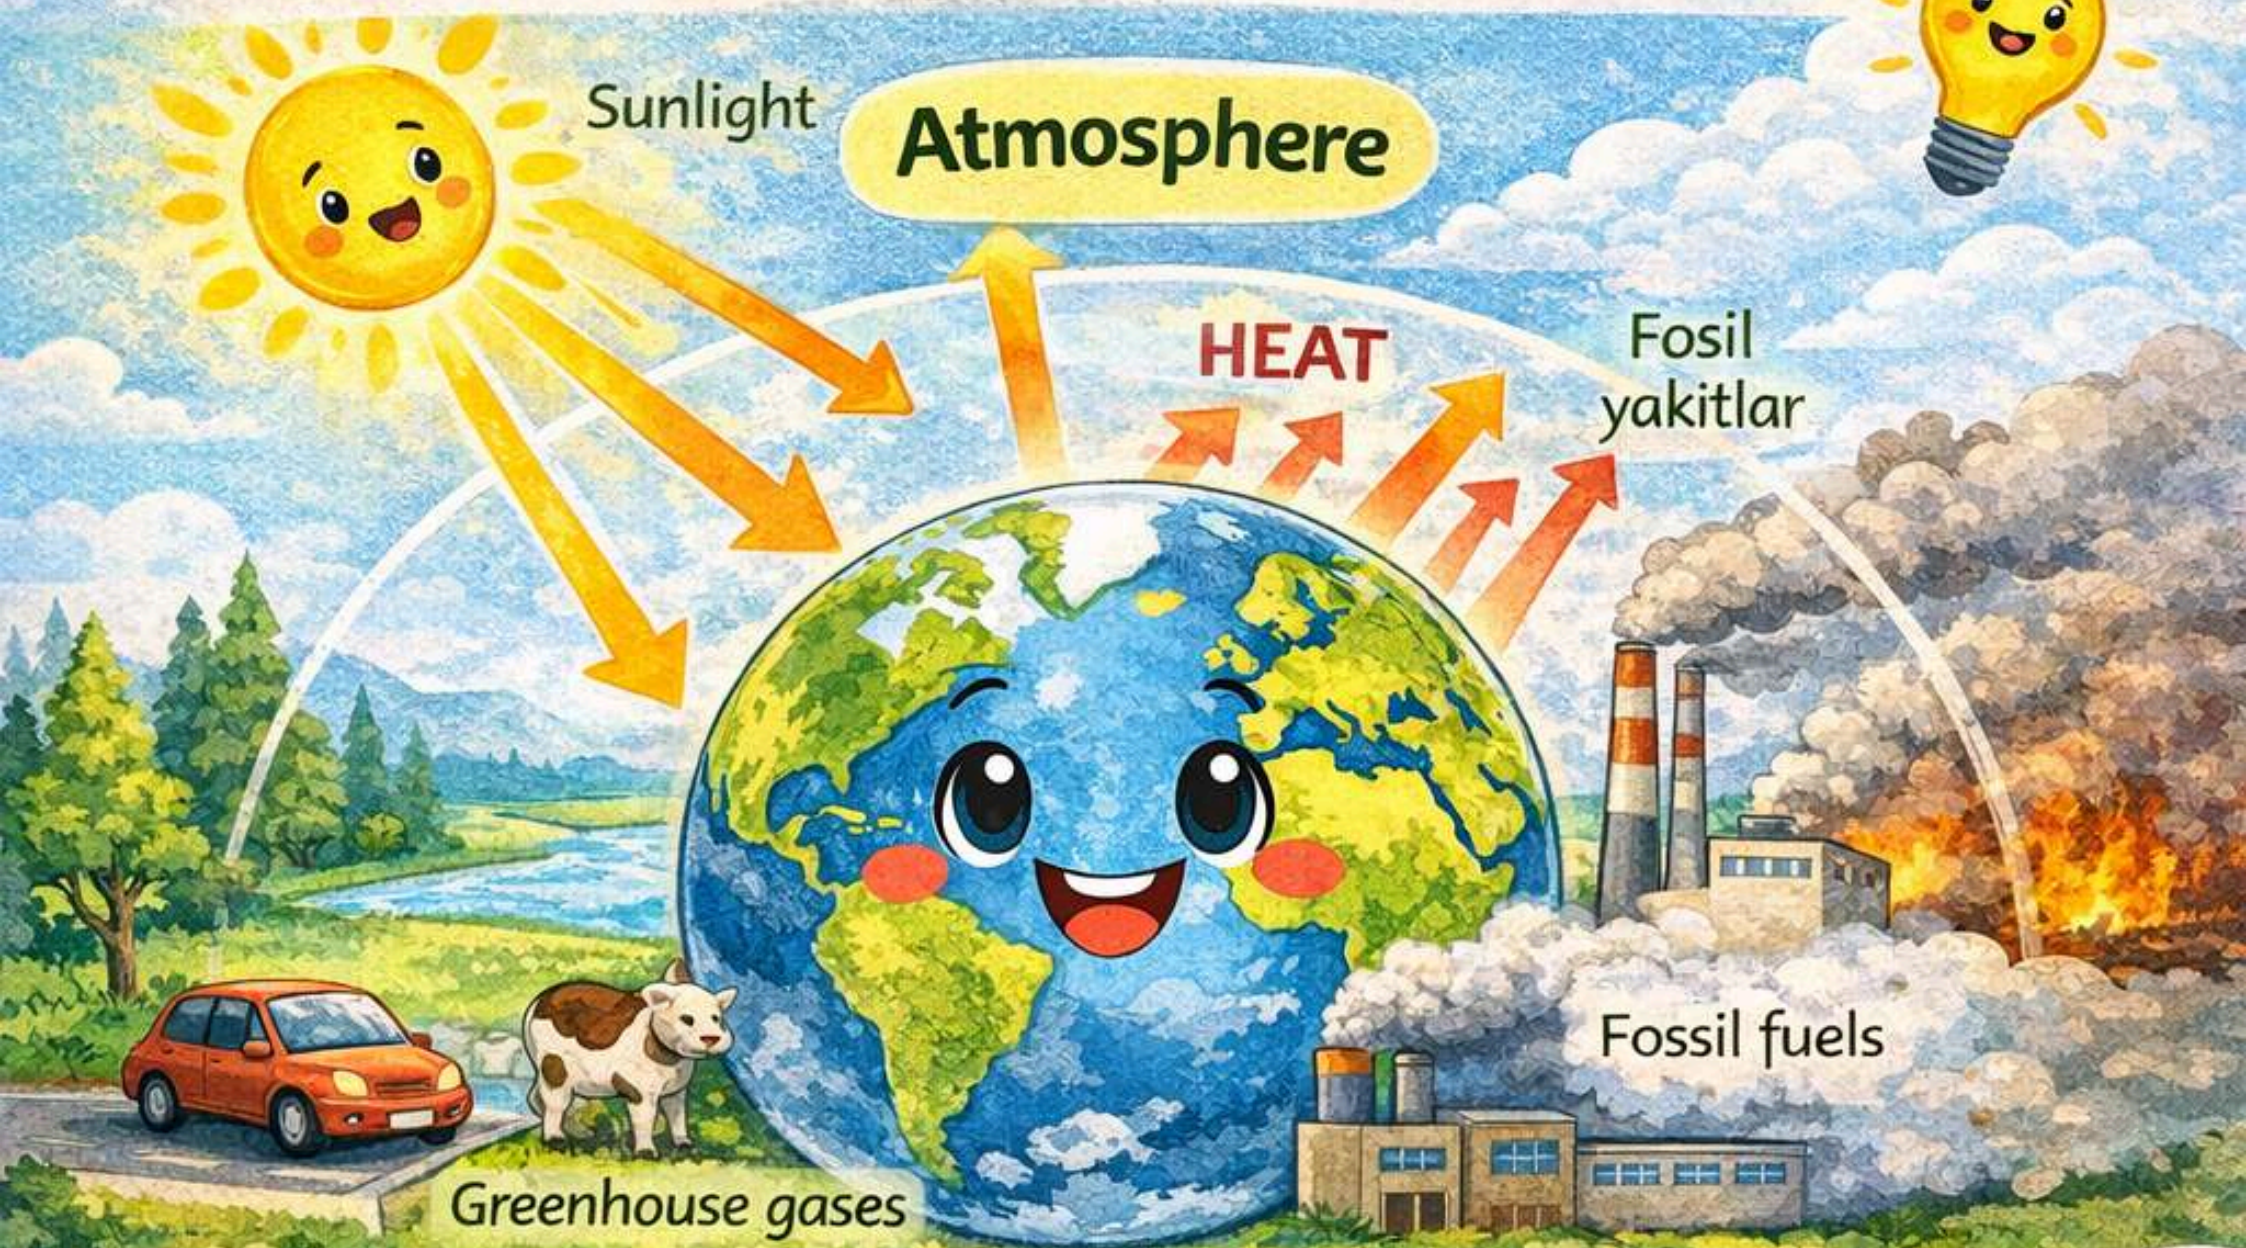

WHAT IS CLIMATE CHANGE?

Climate change is the increase in the Earth's average temperatures over a long period of time. The main reason for this increase is the use of fossil fuels and the build-up of greenhouse gases in the atmosphere.

Did you know?

The Earth has warmed by about 1°C in the past 100 years, and this warming is increasing faster now!

Mini Task:

Write down 3 things that use the most electricity at home:

- ☐ 1. _____
- ☐ 2. _____
- ☐ 3. _____

2

EFFECTS OF
CLIMATE CHANGE

Glaciers are melting, sea levels are rising, and drought is increasing. Forest fires and extreme weather events are *happening* more frequently.

Which animal will
you choose?

● Mini Activity: ●

Pick an animal and write how it's affected
by climate change:

3.

WHAT CAN WE DO IN EVERYDAY LIFE?

✓ **Turn off unnecessary lights.**

We can do many things!

✓ **Use water sparingly.**

✓ **Recycle.**

✓ **Plant a tree or adopt a sapling.**

✓ **Recycle.**

✓ **Reduce plastic use.**

No plastic!

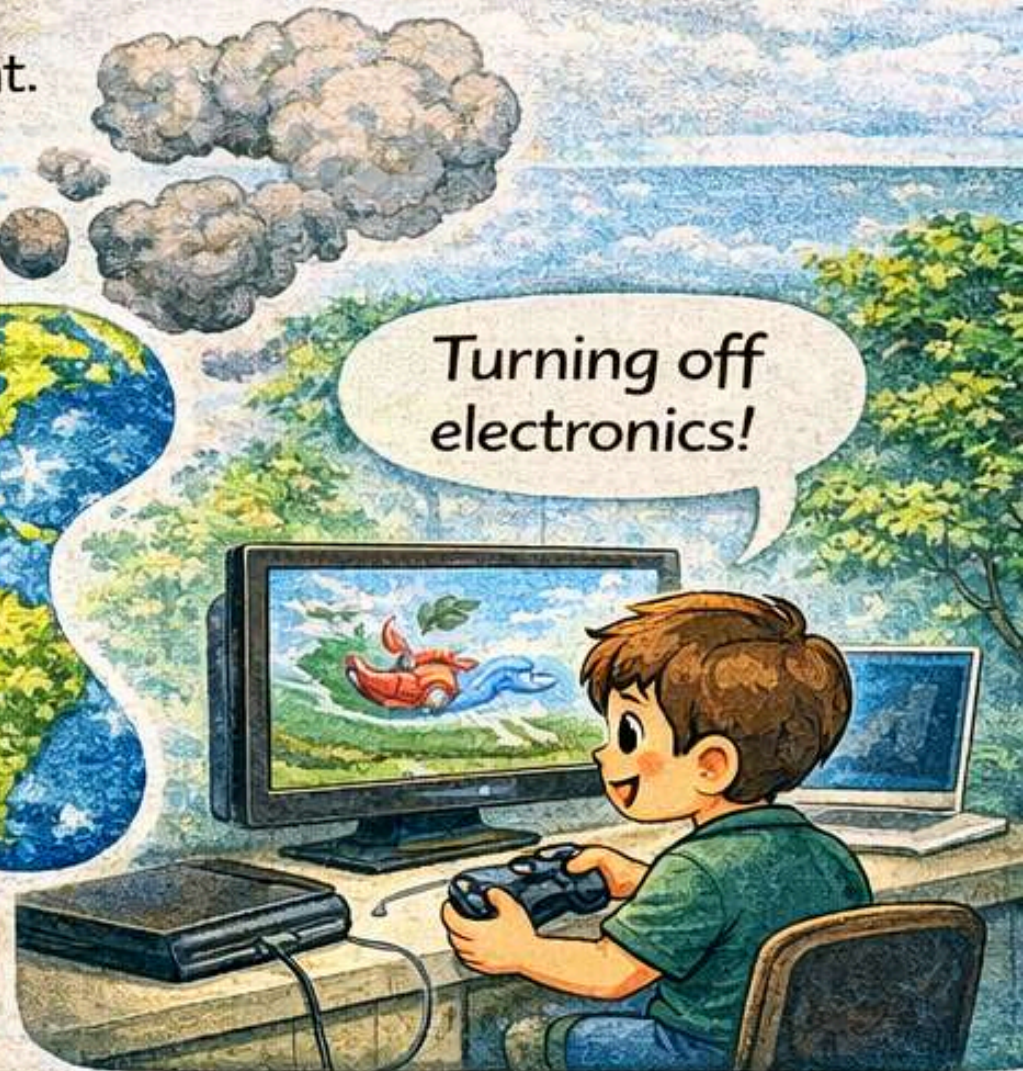

4.

CARBON FOOTPRINT

Our **carbon footprint** is the amount of carbon we release into the atmosphere as a result of our activities. By using less energy, we can reduce our carbon footprint.

We can do many things!

✓ **Recycle.**

✓ **Plant a tree or adopt a sapling.**

No plastic!

Mini Test:

- ✓ Do I walk to school?
- ✓ Do I use unnecessary electronics?

5.

CLIMATE GUIDE

MEASUREMENT & EVALUATION SECTION

A. SHORT QUIZ (MULTIPLE CHOICE)

What is the main cause of climate change?

- ☐ A) Planting trees.....
- ☐ B) Fossil fuel use
- ☐ C) Rainfall
- ☐ D) Wind

What does carbon footprint mean?

- ☐ A) Shoe print
- ☐ B) Walking distance
- ☐ C) Amount of carbon released into the atmosphere
- ☐ D) Sea level

Which is one of the effects of climate change?

- ☐ A) Expansion of glaciers
- ☐ B) Decrease in sea level
- ☐ C) Increase in droughts
- ☐ D) Cooler summers

B. TRUE OR FALSE

- ☐ Climate change only occurs in one country.
- ☐ Planting trees helps reduce carbon.
- ☐ Saving water is important
- ☐ Recycling protects the environment.....

D. SHORT ANSWER QUESTIONS

In the past week:

What's one habit I will change in my life after using this guide?

.....

D. BEHAVIOR ASSESSMENT

In the past week:

What's one habit I will change in my life after using this guide?

.....

CLIMATE HERO

CERTIFICATE

E. SHORT WRITTEN QUESTIONS

1. Why is it important to save energy?

.....

2. How can recycling help the environment?

.....

3. What is one way to reduce how much water you use?

.....

F. BEHAVIOR RATING SCALE

In the past week, how often did you do the following?

Behavior	Never	Sometimes	Often
☒ Turned off unnecessary lights	☐	☐	☐
☒ Used water sparingly	☐	☐	☐
☒ Did recycling	☐	☐	☐
☒ Refused single use plastics	☐	☐	☐
☒ Walked or biked instead of taking a car	☐	☐	☐

F. F. BEHAVIOR RATNG SCALE

In the past week;

What is one habit I will change in my life after using this guide?

.....

CLIMATE GUIDE

Completion Certificate

This certificate is proudly presented to

For completing the **Climate Guide** with
dedication and enthusiasm.
